#### SINGLE-HUNG

Single-hung windows feature a stationary upper sash and operable lower sash that slides up and down.

#### CASEMENT & AWNING

Casement windows are hinged on the side and open outward to the left or right, while awning windows are hinged at the top and open outward.

#### GLIDING WINDOWS

Gliding windows have one stationary sash and one operating sash that glides horizontally. A three-sash configuration, where two sashes glide past a fixed center sash is also available.

#### GLIDING PATIO DOORS

Patio doors feature one stationary panel and one that glides smoothly on adjustable rollers. Add character and light with a sidelight or transoms.
